                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   fractionation. Libraries were amplified once on solid support and plasmid DNA from each library was prepared and mixed in equal amounts. The mixed library DNA was normalized by method #4 from Bonaldo, Lennon, and Soares 1996 Genome Research 6:791-806; 0.5 microgram
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              /note="Vector: pspORT1; Site_1: Not I; Site_2: Sal I; Five libraries representing EIO.5/12.5 pancreatic bud, EIO.5 pancreas, and adult pancreas, and pancreas, and adult islets of Langerhans were separately constructed using SuperScript Plasmid Library kit (Life Technologies).
